Nordic Nanotech
Mikroelektronikcentret (MIC)
Ørsteds Plads, Building 345 Ø,
2800 Kgs. Lyngby
Denmark
Tel.: +45 2343 2073
E-mail: info@nanotech.dk

Recognising the internet's increasing importance with relation to world wide communication, is Nordic Nanotech a company primarily based on the net. On this nanotech portal access to information concerning all areas related to nanotechnology in the Nordic region can be found.

Major Nanotech initiatives in Denmark

The new high technology fund: Micro, bio- Nanotech,

- Budget for 2005-2012 : 16-18 Bn.
- Strong focus on commercialization projects

2 Nano-Schools established in 2002

- Major success with full vacancy every year
- The first set of engineers arrive these days

NaNet, The new nanotechnological network in Denmark

- Create strong and long lasting relationships between
 - research and business.
 - 7 Universities, 5 Technological Institutes, 50+ companies
 - Offices spread around Denmark, close to "customers"
-

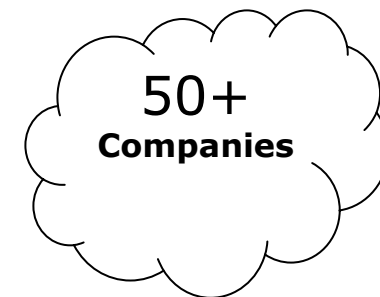

NaNet- Setup

Lab to fab

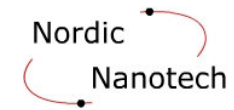

- DTU
- iNANO, Århus
- KU (Cph)
- AUC (Aalborg)
- SDU (Odense)

- Risø
- Bioneer
- DTI
- DELTA
- DFM
- STC
- DANCHIP

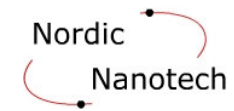

The Nanotech Infrastructure in Denmark

Research, Universities

- Inano (Aarhus), Graduate Deg.
 - Nanoscience Center (Copenhagen), Graduate Deg.
 - DTU
 - MIC, Danish Micro and Nanotechnology Center
 - COM-Center, Center for Communications, Optics and Materials
 - DANCHIP
 - Icat, Interdisciplinary Research Center for Catalysis
 - DFM, (Danish Fundamental Metrology Center)
 - SDU (South Denmark University)
-

The Nanotech Infrastructure in Denmark

Companies, some examples

- | | |
|---------------------|-----------------|
| - Grundfos A/S | Atomistix |
| - Danfoss A/S | Capres A/S |
| - Haldor Topsøe A/S | T-Cellic |
| - H. Lundbeck A/S | Frontcoat |
| - Exiqon A/S | Nanonord A/S |
| - NKT | Nordic Nanotech |
| - Novo (Novozymes) | Nanion |

Strength in Denmark

Nanomedicine, biocompatible materials, Nanosensors, Polymerelectronic, Nanophotonic, Nanocatalysis, Hydrogen, Functional nano materials

Thank you !
