

Successful co-operation between Finland and Japan

WHOLE VALUE GAIN NEEDED!

UNIVERSITY of OULU
OULUN YLIOPISTO

PRODUCTS and SUB-PRODUCTS from all development phases:

- **Polymer base materials for composites**
- **Surfactants and additives for composite**
- **Processing service**
- **Composite materials for components**
- **Components:**
 - Embedded capacitors
 - Thick film dielectrics
 - RF devices
 - Circuit boards
 - Microactuators
 - Radiation protection etc.

Microelectronics and Materials Physics Laboratories

UNIVERSITY of OULU
OULUN YLIOPISTO

OTHER PRODUCTS

- **Contract service between partners**
- **Cooperation research between partners**
- **Doctoral training**
- **Scientific publications**
- **Press releases and exhibitions**
